

Atentie !!!

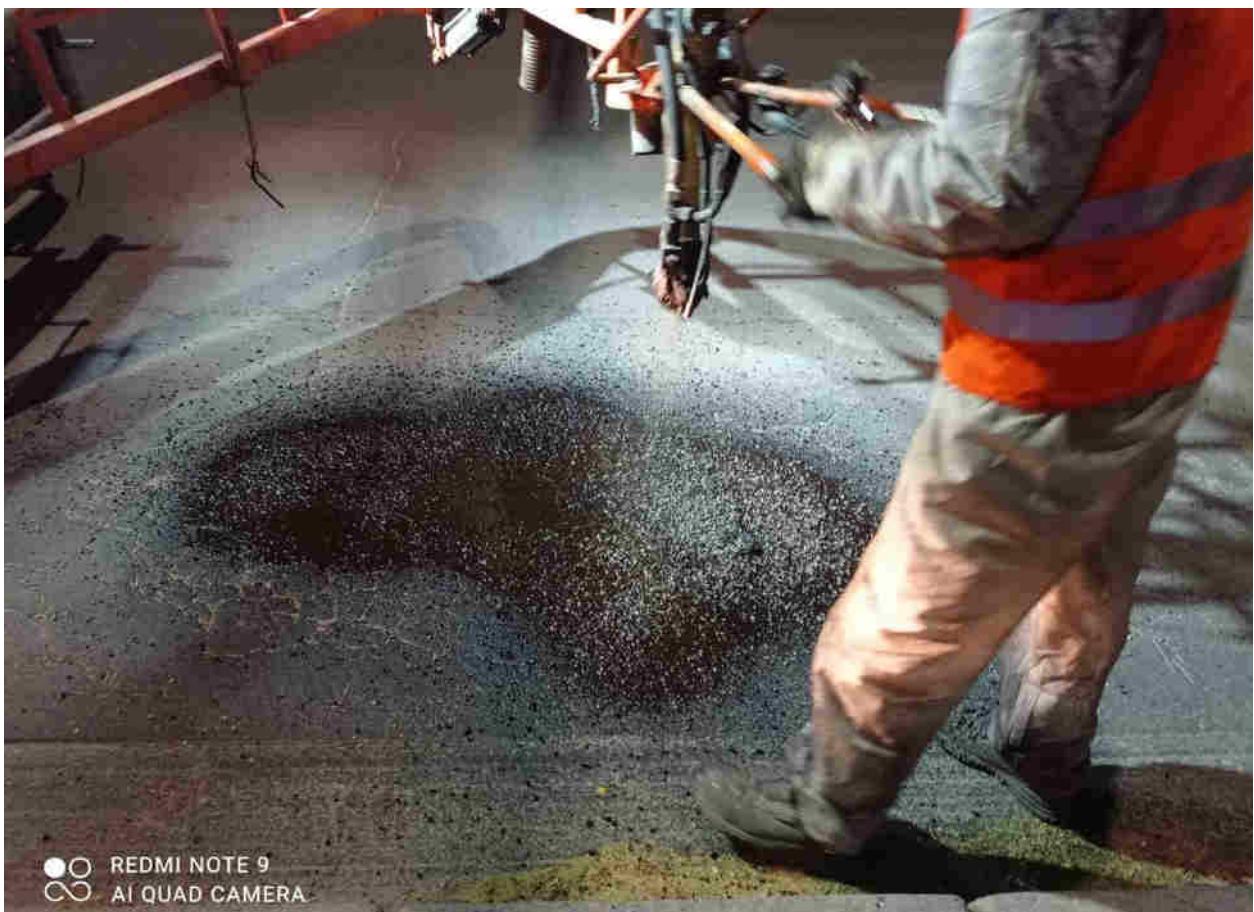

Metoda data de interventie presupune un risc de deteriorare a parbrizelor si caroseriei automobilelor in cazul in care nu sunt respectate cerintele de siguranta din acest motiv rugam insistent participantii la trafic sa se conformeze indicatoarelor de informare in zona de lucru si anume pastrarea distantei si reducerea vitezei de circulatie la 30 km/h. Conform procesului tehnologic salubrizarea pietrisului ramas in urma autocompactarii plombelor il putem efectua doar dupa circa 48 h de la interventie. Ne cerem scuze pentru discomfortul creat, la moment aceasta fiind unica metoda de interventie in vederea lichidarii rapide a situatiilor

deavarriere.
